GILDA AND HENRY BLOCK SCHOOL OF THE ARTS

Get More Out of Your DSLR or Advanced Bridge Camera

Instructor: Stephen Sherman

Welcome New Students,

I wanted to remind you have your camera and camera manual with you for every class. There are too many digital cameras on the market for me to know everything about each one, and you and I will be referring to the manuals often. Also, make sure that your camera battery is fully charged when you bring your camera to class.

If your camera takes a brand unique form of memory card (i.e. Sony Memory Stick), try and bring an appropriate card reader with you to class, as we will need it to look at the pictures you are taking on the computer which can do by sharing your screen.

My contact information is below if you need to reach me or have any questions.

I look forward to meeting you,

Stephen Sherman
