Painting Composition and Design

*Online Course*

**Instructors:** Michael Sherman

Artist Michael Sherman will provide weekly prompts with directives on how to explore art and design in painting or work with students who bring their own. The prompts and references will focus our conversations around aspects of value, color, line, or shape and their relationships in painting.

**Supply list:**
The ‘painting’ materials needed are adaptable and flexible. Students can come with as little as a pencil or charcoal and paper or a full set of paints (acrylic, oil, or watercolor welcome).
